

TOTEM BUILDING SUPPLIES LTD. Kitchen Design

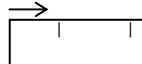

Design your new kitchen today!

...at a price you'll appreciate. Our trained cabinet designers will help you plan your kitchen; customized to your needs. With your unique style and our quality craftsmanship, you will enjoy your new kitchen for years to come and also increase the value of your home.

For us to offer you the exceptional level of service you deserve, please phone ahead for an appointment. The following is a guideline of measurements that we require you to bring to successfully design your kitchen:

- Measure the dimensions of the walls, starting from the left corner. Include all appliances. 

- Measure from the corner wall to the edge of all window and door casings. 

- Measure the total window or door width, including the casing.

- Measure from the end of the wall to the center of your stove and sink. 

- Measure the height, width, and depth of obstacles (ie. chimneys).

- Measure the width of your appliances.

- Measure the height of your fridge.
